

## A Miracle Story

*Christina is a typical teenager who enjoys life to its fullest. Upon returning from a trip abroad, she found herself exhausted and out of breath. Physicians at Arnold Palmer Hospital for Children & Women determined Christina was in heart failure. Within days, Christina was transferred to the Pediatric Intensive Care Unit at UF & Shands Children's Hospital and placed on the waiting list for a heart transplant.*

*Eventually, a heart did become available that was a match for Christina and the surgery was a success but her battle continued when, a few months following her transplant, she was diagnosed with lymphoma. True to her nature, Christina faced this challenge with remarkable courage. As she underwent chemotherapy Christina always kept her smile in place and her attitude upbeat. This April, Christina was pronounced cancer free! Christina is a beautiful and intelligent young woman who is a true inspiration to everyone she meets.*
